

The background is a solid dark blue. It is decorated with several stylized paper clips in various colors (pink, green, orange, blue) and semi-transparent circles with diagonal line patterns. The paper clips are positioned around the edges of the frame.

```

# Links - target

```
<a href="https://example.com" target="_blank"> Website </a>
```

Value	Description
<code>_blank</code>	Opens the linked document in a new window or tab
<code>_self</code>	Opens the linked document in the same frame as it was clicked (this is default)
<code>_parent</code>	Opens the linked document in the parent frame
<code>_top</code>	Opens the linked document in the full body of the window

# Links - rel

```
<a href="https://example.com" rel="nofollow noreferrer"> Website </a>
```

## Value

## Description

`nofollow`

Indicates that the linked document is not endorsed by the author of this one, for example if it has no control over it, if it is a bad example or if there is commercial relationship between the two (sold link). This link type may be used by some search engines that use popularity ranking techniques.

`noreferrer`

Prevents the browser, when navigating to another page, to send this page address, or any other value, as referrer via the `Referer: HTTP` header.  
(In Firefox, before Firefox 37, this worked only in links found in pages. Links clicked in the UI, like "Open in a new tab" via the contextual menu, ignored this).
